To the Hiring Manager

Subject: Application for Employment

Dear Hiring Manager,

I am writing to express my strong interest in joining your organization. I am an Information Technology & Software Engineer with a B.Sc. in Information Technology (94.75%, Excellent; ranked first in my cohort three times) and a full year of continuous hands-on experience across software development and IT support. I am confident that I can bring both technical depth and a reliable, solution-focused work ethic to your team.

Over the2026 year, I independently designed, built, and shipped 11 applications — 8 live web platforms and 3 Android apps — using Flutter, React/Next.js, Python (Flask), PHP, and Supabase/Firebase. These include a multi-vendor marketplace, an AI-powered study app currently in Google Play testing, an academic management platform with role-based access and QR attendance, and an AI resume builder. Through this work I gained practical experience in database design, security, real-time systems, AI integration, and cloud deployment.

I currently work as an IT Support Specialist at Madghout Bladi Restaurant in Al-Madinah, where I manage the POS and accounting systems, maintain and program the CCTV system, and resolve hardware and software issues to keep daily operations running smoothly. I am CCNA-certified, completed 70 hours of hands-on training in network design and Windows Server administration, and received practical training on ERP accounting systems such as Onyx Pro.

As a lecturer at three universities and a college, I taught more than 8 IT courses to over 50 students. This experience strengthened my communication skills, my ability to simplify complex technical concepts, and my ability to work effectively with diverse teams.

I would welcome the opportunity to contribute to your organization and grow with your team. My CV is attached, and my portfolio is available at mansooranes.netlify.app. I would be glad to discuss how my skills and experience can support your goals. Thank you for your time and consideration.

Sincerely,

Mansoor Anes Mahyoub Al-Kahtani
